Khan Academy
1200 Villa St
Mountain View, CA

October 11, 2017

Hello,

I am a junior in Computer Science at the University of Michigan, and I am highly interested in working at Khan Academy next summer through the internship program.

I believe I could be a great contributor at Khan Academy, for I have skills in a variety of technology stacks gained through multiple personal projects, and also real-world work experience in a developer position. I also perform very well on teams with strong communication skills and thoughtful organization.

The technical challenges that Khan Academy faces in delivering a rich learning experience in such a high volume is really amazing, and speaks to how talented the team behind the scenes is. I would love to work with—and learn from—that team over the summer.

Thank you,

Paul Gossman
