Bloomberg L.P.
New York, NY

October 11, 2017

Hello,

I am a junior in Computer Science at the University of Michigan, and I am highly interested in working at Bloomberg next summer through the internship program.

I believe I will be a great asset for the team at Bloomberg as an intern, for I have very strong Java and C++ skills gained through my education, many personal projects, and also real-world work experience in a developer position. In my developer position, I led the design, development, and rollout of a production application used across many departments of the organization.

Please review my resume for any additional details regarding my experience and skillset. I look forward to hearing from you.

Thank you,

Paul Gossman
