Box   October 11, 2017
Redwood City, CA

Hello,

I am a junior in Computer Science at the University of Michigan, and I am highly interested in working at Box next summer through the internship program.

I believe I could be a great contributer at Box, for I have skills in a variety of technology stacks gained through multiple personal projects, and also real-world work experience in a developer position. I also perform very well on teams due to my strong communication skills and thoughtful organization.

The technical challenges that Box overcomes in delivering cloud storage and collaboration software in such a high volume are really amazing, and it speaks to how much talent is on the team running it all. I would love to work with—and learn from—that team over the summer.

Thank you,

Paul Gossman
